

A newsletter published monthly, except in the summer, by the UFO Study Group of Greater St. Louis, Inc., P.O. Box 6612, St. Louis, MO 63125. The UFO Study Group is not affiliated with any national society but is a nonprofit organization dedicated to the investigation and reporting of unidentified flying objects (UFOs).

VOLUME 3, NUMBER, 6

FEB. 1983

## THE UFO

EDITOR: John E. Schroeder

EDITORIAL COMMITTEE: Michael Shannon, Donald R. Quiel and the Secretaries of the three committees of the UFO Study Group, the Field Investigators, the Parapsychology Committee and the Saint Charles UFO Committee. Copy must be submitted by the 15th of the month previous to publication.

### THE MONSTERS AMONG US

The 2:00 P. M. February 13 meeting of the UFO Study Group of Greater St. Louis, Inc. will be held at the Farm and Home Savings Building, 110 West Lockwood (Lockwood at Gore Street), Webster Groves, MO. This meeting- open to the public- features a speech on "The Monsters Among Us" by Joseph E. Palermo.

Mr. Palermo, young film writer and producer, has studied more than 1,000 cases in which "Sasquatch", "Bigfoot", "Mo-Mo Monster", "Yeti" or huge unnamed hairy creatures have been observed. A few appearances seem to correlate with UFO or night-light observations. Some creatures seem drawn to people practicing meditation or eastern martial arts exercises. Some monsters leave behind evidence of their existence that is as mysterious as their origin or their mode of existence on our planet. Their size and strength exude an aura of danger; and occasionally "Men-In-Black" threaten witnesses who have seen them.

Joseph Palermo has had a personal experience with such a huge anomolistic creature in a park near St. Louis. He will share the facts of this confrontation as well as his feelings; and will also divulge mysterious deeds and disappearances which followed the Bigfoot sighting.

According to Irene Alexander, President of the UFO Study Group, "Mr. Palermo knows how to tell an interesting story well. His account has a dramatic flair, mystery and intrigue. This is a must program for anyone who is interested in the unusual."

### UFO BUFFS BANQUET AT BONANZA

by Clifford Palmberg

The St. Charles UFO Committee holds public meetings the third Tuesday of each month at Bonanza Sirloin Pit, Duchesne at West Clay. The next meeting will be held, 7:30 P. M., February 16. Come early, bring your friends and enjoy an excellent meal with other UFO enthusiasts.

The pooling of information on special study areas of Ufology and related subjects is highly informative. The discussions are informal and enjoyable. Some of the topics covered at the January 17 meeting were:

1. Further discussion of the Cash-Landrum case as reviewed by Bruce Widaman who use the MUFON Journal as his primary resource.

2. Laser and Particle Beam weapons as an effective component in our military arsenal.
3. Application of computer technology to Ufology.
4. Mike Shannon's review of a book on the New Zealand UFO's.

We hope to see you at future St. Charles Study Group meetings when subjects equally interesting and informative will be discussed.

### STATE OF THE STUDY GROUP

by Irene Alexander, President

Despite the fact that the last months have been very busy ones for everyone in the UFO Study Group of Greater St. Louis, Inc., we have had some excellent meetings. More members are getting involved, attendance is increasing and we have a little money in the treasury. John Schroeders' idea about sponsoring an issue of the Enigma for \$20 brought in enough money to take care of three issues. Look for more information about this elsewhere in this newsletter.

Our new format in which our various committees take turns sponsoring the speakers for their particular month is working well. We give our Past-President, Powell Adams, credit for pushing this idea through.

Our Investigators are super! But then so are our St. Charles people, and for a really exciting meeting our Parapsychology group can't be topped! When I think of the talent and the cooperation and the willingness to do, that surrounds us- the officers and members, who work so hard and never say no; they just keep on giving and still they say, "if there is anything I can do let me know." "I say to myself- We can't help but be #1." We have the best!

The library inventory will soon be completed- and we will have lists printed for each member. What a tremendous undertaking! Our thanks and gratitude to John Ropollo and Mike Shannon for completing this time consuming project. It has to be a labor of love- this mountain of books and material!

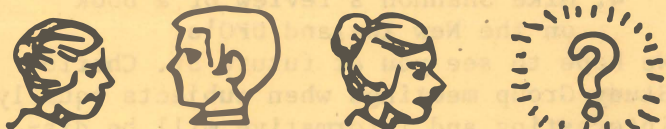

Plans are in the works for a dinner meeting June 12 and a picnic at Love Park August 21. Then, of course, election of officers in September. Our officers come from our members, our directors from our officers. We would like anyone who is interested to train as an assistant in some official capacity, so that- when there is an opening- there is a qualified member to fill the vacant position. By being involved, you do get information which non-members do not. The Study Group belongs to you. Take advantage of it! Think about all we have to offer you.

FEBRUARY ENIGMA SPONSORED

This issue of the Enigma has been sponsored fully by Richard and Rosetta Holmes. Thank you for your generosity. We gratefully acknowledge your participation in and support of the many programs of the UFO Study Group of Greater St. Louis.

Anyone wishing to sponsor a future issue of the Enigma for all or part of the \$20 cost may send their check together with their name, address and zip code plus one sentence of acknowledgement to the UFO Study Group of Greater St. Louis, Inc., P. O. Box 6612, St. Louis, MO. 63125. You may also give your donation to President, Irene Alexander or Treasurer Spencer Wolling.

PSI GROUP HEARS OF DISAPPEARING HUMANOID  
by Viola Echele

Nine people attended the 7:30 P. M. Parapsychology Committee meeting, Wednesday, January 5, 1983 at Key Productions, Inc. office. Chairperson Viola Echele welcomed everyone. Don Haskins read a background article about Charles Hickson's close encounter with space suited aliens or robots in Pascagoula, Mississippi. This was to prepare members for the review Dorothy Stencel will give in a future meeting of Hickson's account of PSI revelations which followed his UFO boarding experience. Don Haskins also read an article on "Chasing UFO's."

John Schroeder gave two reports of recent PSI power. An elderly lady tried to buy five stamps from a commercial postal window where only rolls of 100 were sold. A tall, pale, wide-eyed and handsome young man who had been in line before her, returned to give the woman the five stamps. She quickly reached into her purse for the dollar to pay him. Looking up, she could not find him. The kindly young man had not gone out the Post Office door. He had disappeared.

Another woman, locked out of the house in 1981, had been told by Eleanor Schroeder in response to prayer- to unlock the house door with her car key. It worked. In December 1982, the same woman was again locked out and keyless. Instead of her house key, he "special hiding place" revealed her garage key. This time- after prayer- John Schroeder told her to use the garage key. The woman protested that the grooves did not match the lockplate; but she tried, turned the key and the latch opened. Repeated attempts later to open the door with the garage key failed. John quoted the woman, "It couldn't happen to me twice, Thank you, Lord."

Robert Murphy then told of a gold suited alien who strangely disappeared before his percipients.

The next Parapsychology Committee meeting will be held at Schroeder's home, 4991 Miami (352-3058 for directions), 7:30 P. M. Wednesday, February 2. Shirley Walters, who has had training as a psychic healer, will discuss her techniques and experiences. If time allows, John Schroeder will also discuss two police cases in which PSI power was involved.

INTERESTING ACQUISITION FOR UFO LIBRARY

reviewed by John E. Schroeder

The Andreasson Affair: Phase Two, "The continuing investigation of a woman's abduction by alien beings." Written by Raymond E. Fowler. Copyright 1982 by Prentice-Hall Publishers, N. Y., N. Y. ,278 pages, \$10.95 in hardcover.

This book relates multiple close encounters with UFO's revealed by repeatedly induced hypnotic regressions. It follows the unfolding story of Betty Aho Andreasson Luca's examination and travel aboard a glowing UFO first told in The Andreasson Affair published in 1979.

Parapsychological phenomena and reader interest persuaded Raymond Fowler to write this sequel. For example, pre-tested cassette tapes (in which Betty described having a needle inserted in her navel as a genetic test) failed to play on several radio stations. On KTHR's "Talk Of Houston" it played, but the station went off the air mysteriously when Betty began to speak. On a Boston TV station, the only segment taped in one morning that produced a garbled signal was Betty's. Fleeting images of ghostly figures, pursuit by black unmarked helicopters, and memory of alien messages, "Don't share our information until you are older" led to continued interviews under hypnosis.

Betty learned she had three "alien visitations" and her new husband, Bob, had two- all described in graphic detail. The only block seems to have been limited to forgetting the messages of the "angelic aliens" or "the One". The latter held court in a crystal land of light behind glass cathedral doors.

According to transcriptions of interviews (with many leading questions) given Betty under hypnosis. She also was taken to an underwater base where she saw a gallery of lifelike people in many cultures and races. Many of the experiences of Betty and Bob Luca had on board the UFO's with small gray-skinned creatures and one taller alien agreed in close detail.

UFO classifications given on page 31 were applied in an interesting way. Objections to hypnosis as an accurate investigative tool were also aired openly on page 232ff. The most intriguing information in Fowler's book was his constant comparative references to other documented UFO cases.

Irene Alexander donated this interesting, challenging and mind-expanding book to our UFO library. Your time will be well spent reading both books in The Andreasson Affair series.

ADDRESS CHANGES

The Study Group secretaries are updating our mailing list. If there are any corrections or changes to be made, please send them to P. O. Box 6612, St. Louis, MO 63125 Please print. My \$6 dues check is enclosed. ☐
